

SUPERIOR STRENGTH WITH MAXIMUM WIND PROTECTION FOR YOUR ROOF

Anchor-Tite® Extended Fascia combines custom engineering and superior performance with an attractive appearance. The patented design of our extruded aluminum anchor bar securely terminates the membrane, providing protection superior to any other manufactured or shop-fabricated roof edge. The Extended Fascia is available in sizes from 8-1/2" to 13" face heights to accommodate multiple nailers and coverage requirements.

Rigorously tested, and backed by one of the industry's strongest wind warranty, it's proven to be compliant with all relevant building codes—providing the maximum protection against wind uplift damage that is available in today's roofing market.
