

Seal-Tite WR Gutter

SUPERIOR, TESTED, ATTRACTIVE ROOF DRAINAGE

Superior roof drainage, easy installation, and attractive appearance make Seal-Tite gutters and downspouts stand out from the crowd.

Seal-Tite WR Gutters are specifically engineered and tested to meet the requirements of the ANSI/SPRI GT-1 Standard for Gutter Systems Used with Low-Slope Roofs. The design incorporates a 1" wide extruded internal gutter hanger for strength and support. It also reduces the torque of the metal with expansion and contraction in temperature changes.
