

ENDURA™ EDGE TG

Torch Grade

A High Performance System at an Economical Price

We developed Endura™ Edge TG with the contractor in mind. Combining a highly engineered and tested product with quick-to-ship convenience and economical pricing, Endura™ Edge TG will simplify your projects – and maximize your profits.

Endura™ Edge TG can be a more cost-effective solution than fabricating in your own shop. A continuous pattern of offset openings in the flange allow consecutive layers of roofing plies to be fused together, creating a weathertight barrier against wind and water.

Ideal for all Multi-Ply or Modified roofing applications

- ▶ Try our quick-to-ship products and see how Malarkey can help deliver your project **ON TIME AND ON BUDGET.**

High Quality

- ▶ Carefully designed and ANSI/SPRI/FM 4435/ES-1 tested to comply with the IBC
- ▶ Roofing plies bond together to create exceptional seal
- ▶ Available in 15 popular Express Colors or custom finishes with a 30-year warranty
- ▶ Warranties match applicable NDL terms/conditions

Economical

- ▶ Lower price than other customized solutions
- ▶ Decreased labor costs due to easy installation
- ▶ Higher overall profit on your construction projects

Easy Installation

- ▶ Manufactured in 12' lengths, saving 20% - 40% in material handling when compared to 10' or 8' material
- ▶ Factory-fabricated miters eliminate the need for field fabrication
- ▶ Slotted fastening holes ensure correct fastener placement and spacing

Since 1956, Malarkey Roofing Products has operated as a family owned, professionally managed, privately held company, headquartered in Portland, OR.
