

Anchor-Tite

Drip Edge

The Best of the Best

Anchor-Tite Drip Edge combines custom engineering and superior performance with an attractive appearance. The patented design of our extruded aluminum anchor bar securely terminates the membrane, providing protection superior to any other manufactured or shop-fabricated roof edge.

This top-line drip edge provides the maximum protection against wind uplift damage that is available in today's roofing market. It also comes with the industry's best warranty – a Lifetime, 215 mph Wind Warranty. Rigorously tested, Anchor-Tite Drip Edge is compliant with ANSI/SPRI/FM 4435/ES-1 and the International Building Code. All that and it is easy to install, reducing time and labor costs.

▶ **Eliminate stripping-in or heat welding of your TPO and PVC Drip Edges to protect your project, while keeping it ON TIME AND ON BUDGET.**

High Quality

- ▶ Backed by a Lifetime, 215 mph Wind Warranty
- ▶ Patented design for extreme durability
- ▶ Low profile allows water drainage for many conditions
- ▶ ANSI/SPRI/FM 4435/ES-1 tested to comply with the IBC
- ▶ 30 Year Kynar® paint finish
- ▶ Factory Mutual approved for wind uplift protection

Affordable

- ▶ Overall reduction in installed cost vs traditional systems
- ▶ Available in 30 color choices and 4.5" and 6" sizes

Easy Installation

- ▶ No need for stripping-in or heat welding that are typical with other systems
- ▶ Prefabricated miters and accessories ensure a proper fit and prevent the need for any field fabrication
- ▶ Full snap-on design facilitates easy installation
- ▶ Watertite integrity is not compromised by improper flashing procedures, failed adhesives, or lap sealants

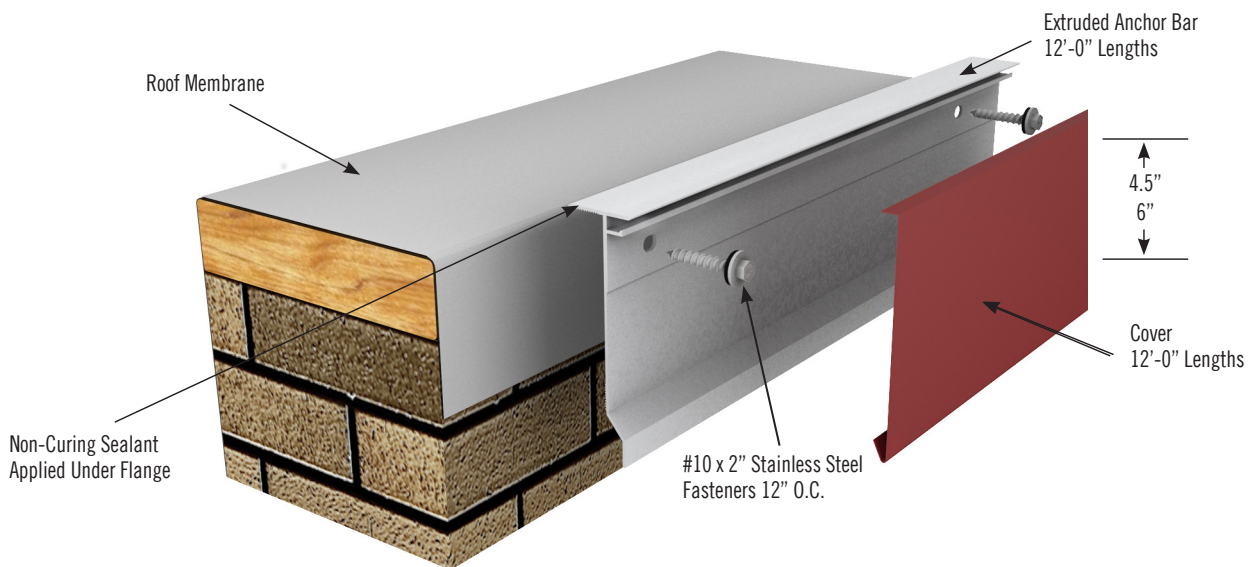

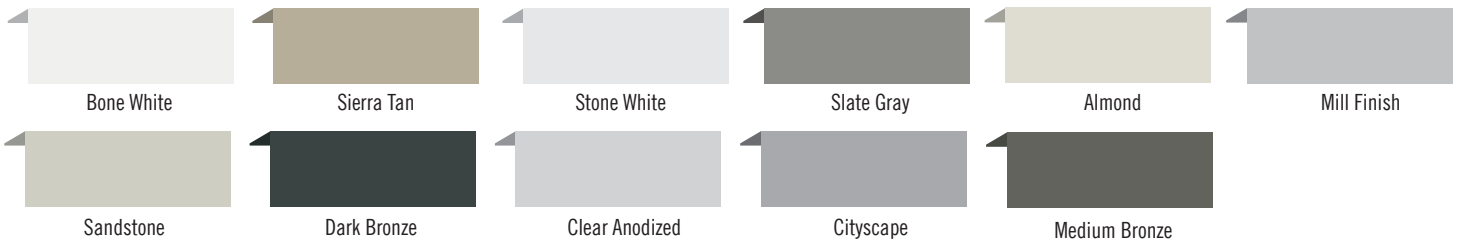

With Metal-Era's SPEQ promise of speed, protection, expertise and quality, you are assured that Anchor-Tite is backed with quality and service guarantees.
