TPO & Kynar Versions

TPO Coated
Drip Edge

Kynar
Drip Edge

Performance-Tested Drainage Solution

For Your Roof Edge

VersiTrim Drip Edge is priced economically but manufactured to the same exacting standards as our other products, making it a great alternative to shop-fabricated roof edges.

When cost is the key factor, easy installation becomes even more important. With pre-punched holes and 12' lengths for less seams, VersiTrim Drip Edge is specifically designed to simplify the installation process, save on costs, and ensure a uniform appearance by using Versico TPO Coated Metal.

in transit in 1-3 days with Versico's
QUICK-TO-SHIP PROGRAM

High Quality

- Versico TPO Coating 30-50% thicker than competition
- Variety of face heights available with or without cleat
- Interlocking, concealed splice plate design prevents splice plate migration
- Carefully designed and ANSI/SPRI ES-1 tested to comply with the International Building Code
- Florida Building Code Approved
- 20 year, 90mph Wind Warranty

Economical

- Economically priced for cost-conscious projects
- Decreased labor costs due to easy installation
- Higher overall profit on your construction projects
- Heat weldable TPO for reduced callbacks
- 20 or 30 year finish warranty available

Easy Installation

- Manufactured in convenient 12' lengths with pre-punched fastening holes to ensure correct fastener placement and spacing
- Factory fabricated miters, scuppers and drainage accessories eliminate the need for field fabrication
- TPO Coated with Versico material to ensure compatibility
