The Right Design, Quality, Color and Finish
At the Right Price

Metal-Era continues our tradition of innovatively designed, rigorously tested roof edge systems with Perma-Tite. The clean design of Perma-Tite Coping is available in many versions, making it a versatile solution for a variety of roof conditions. Its full snap-on design ensures long-term positive attachment and brings extra stability to the roof edge system. It also brings quick installation and lower labor costs.

Perma-Tite Gold Coping is our top-line coping, designed and tested to provide superior protection against extreme wind uplift. It also comes with the industry’s best warranty - a Lifetime, 215 mph Wind Warranty. All that and it is easy to install, reducing labor hours and saving costs.

Try the superior strength and performance of Perma-Tite Gold Coping and see how Metal-Era can help you to deliver your project **ON TIME AND ON BUDGET.**

### High Quality
- Factory Mutual approved for wind uplift protection
- Compliant with all relevant building codes, including the High Velocity Hurricane Zone of the Florida Building Code
- Backed by a Lifetime, 215 mph Wind Warranty
- ANSI/SPRI/FM 4435/ES-1 Tested

### Affordable
- Decreased labor costs due to easy installation
- Available in a wide range of standard colors and finishes

### Easy Installation
- Full snap-on design in 12’ lengths with no crimping
- Pre-punched fastening holes ensure proper attachment to the building substrate
- Corrosion resistant, stainless steel springs are factory attached to the anchor clips and provide long-term, positive spring loading
- Fits wall widths up to 32”

With Metal-Era’s SPEQ promise of speed, protection, expertise and quality, you are assured that Perma-Tite Gold is backed with quality and service guarantees.
