

MEASUREMENT OF RADIUS FASCIA CONDITION

INSTRUCTION SHEET

- Using the 36" straight edge provided, set it against the wall (as illustrated).
- Using the 12" rule provided, measure the distance (rise) from the edge of the yardstick at the 18" mark straight in to the face of the parapet.
- Repeat steps 1 and 2 in several more areas along the arch. Record these measurements in the boxes provided. We will calculate the radius from these measurements.

NOTE! If the measured rise dimensions vary by $\frac{1}{2}$ " or over, contact Joe Inzeo at (1-800-558-2162 - Ext 403) for further instructions

- Fill in the general information below and fax this sheet back.

PLAN VIEW

NOTE! INDICATE PROPER RADIUS CONDITION BY CIRCLING APPROPRIATE OUTSIDE FACE.
